DULMIN WICKRAMAGE

DevOps Intern | Undergraduate Computer Science Student

Colombo, Sri Lanka | Phone: +94767477994 | Email: dulmin.code@gmail.com | LinkedIn: dulmin-wickramage | GitHub: Dulmin2021

SUMMARY

Motivated undergraduate Computer Science student seeking a DevOps internship. Strong foundation in Linux, Docker, Git, and CI/CD concepts with hands-on academic and personal projects. Eager to learn cloud technologies and contribute to real-world DevOps workflows.

TECHNICAL SKILLS

- **Operating Systems:** Linux (Ubuntu, Pop Os), Windows, Mac OS
- **DevOps Tools:** Docker, Git, GitHub, GitHub Actions (basic)
- **Cloud and Infrastructure:** AWS (EC2, S3 – basic knowledge)
- **Scripting & Programming:** Bash, Powershell, Python (basic)
- **Web & APIs:** REST APIs, Nginx (basic)
- **Other:** CI/CD concepts, Agile fundamentals

ACADEMIC & PERSONAL PROJECTS

Sritop: System monitor for linux : Link
Real-time terminal-based system resource monitor built with Python and Textual, providing htop-like functionality with intuitive UI for monitoring CPU, memory, disk usage, and processes in Linux environments.

BidFlare – Web-Based Auction Platform : Link
Developed a full-stack real-time bidding application using ASP.NET Core Web API and React with SQL Server database. Implemented JWT authentication, role-based access control, real-time bid updates using SignalR, and an admin dashboard for platform management.

Tubefetch - Youtube downloader : Link
YouTube video downloader with multi-quality options (360p-1080p), built using React and Express. js with security features including rate limiting, URL validation, and protection against command injection attacks.

EDUCATION

Bachelor of Science (Hons) in Computer Science
NSBM Green University
Sep 2022 - Dec 2026

CERTIFICATIONS AND LEARNING

- DevOps and AI on AWS
- Google IT Support
- AWS on Amazon Skill builder
